fime

Card testing services

Launch innovative solutions quickly and cost effectively to stay ahead

Card testing services with functional and security testing

Accelerate your product launch with our 'glocal' expert teams.

From expert consultation to training, support and testing tools, we enable you to deploy your card innovations, globally and swiftly to meet evolving market needs.

How it works

- Define test scope based on product configurations and target certifications.
- Request quote based on the scope.
- Book timeslot with lab for Debugging and Type Approval.
- Prepare the test samples and required documentation.
- Accredited local lab performs testing.
- On demand expert result analysis support.
- Provide test results / reports for approvals.

Key benefits

- Work with a single partner, accredited by most of the international and domestic payment schemes.
- Easy access to project management with teams located in 8 countries across all regions.
- One-stop service for consultancy, tools and testing services across functional, security and durability.
- Utilize our expertise in innovative product evaluation, including biometric sensor on card.

Fime can help you at any stage of your project lifecycle.

Define Design Deliver **Test**

What we offer

- **Onboarding support**
  Explain the certification process and its prerequisites. Validate the testing scope taking into account applicable limitations or deviations.
- **Test strategy definition**
  Tailor Fime test plan by selecting relevant test cases to meet your business needs.
- **Certification testing**
  Ensure the quality of your solutions. Our production testing verifies all relevant features in a live environment provided by dedicated physical testing machines. Results are recorded in an official report.
- **Quality Assurance & regression testing**
  Assure continuous quality of your solution with Fime

Why Fime?

- **Trusted testing partner**
  Our global ISO / IEC 17025 accredited laboratories have offered leading payment testing services for 20+ years.
- **Engaged in standardization**
  Our experts participate in, and contribute to, major standardization initiatives.

Making innovation possible.

Making the world work.
