fime

Mobile payment testing services

Innovate, protect your brand and optimize user experience

Mobile testing services with functional and security testing

Ensure the performance, reliability and interoperability of smartphones or wearables to grow your market share.

From consultancy to training, tools and certification, we enable you to deploy terminal innovations swiftly to extend payment acceptance and improve customer experience across channels.

How it works

- Define test scope based on product configurations and target certifications.
- Request quote based on the scope.
- Book timeslot with lab for Debugging and Type Approval.
- Prepare the test samples and required documentation.
- Accredited local lab performs testing.
- On demand expert result analysis support.
- Provide test results/reports for approvals.

Key benefits

- Meet your target timelines with flexible test session booking.
- Easy access to project management with teams located in 8 countries across all regions.
- Accelerate test session issue analysis with our expert consultants.
- Fast-track service to accelerate project completion.
- Benefit from extended interoperability testing services to validate solutions beyond the core scope of specifications.
- Collaborate with a team experienced in next-gen wearables and innovative mobile devices.

Fime can help you at any stage of your project lifecycle.

Define | Design | Deliver | **Test**

Standards

- American Express
- Discover
- EMVCo (EMVCo Mobile & EMVCo Reduced Range)
- EMVCo SBMP (Software-Based Mobile Payments)
- ISO 10373-6
- JCB
- Mastercard
- NFC Forum
- TAICS
- UnionPay
- Visa

What we offer

- **Onboarding support**

  Explain the certification process and its prerequisites. Validate the testing scope taking into account applicable limitations or deviations.
- **Test tool**

  Use the same tool as for the debug phase for certification in our laboratories. Remote expertise and debugging is possible with Fime experts' assistance.
- **Certification testing**

  Debug and type approval testing with the qualified testing tools. An official report will be issued to obtain the Letter of Approval.
- **Security evaluation services**

  Pre-assessment and formal security evaluation through Fime Security lab and partners.

Why Fime?

- **Trusted testing partner**

  Our accredited laboratories have offered leading payment testing services for 20+ years.

  14 laboratories across all regions to provide local support.
  A to Z services accelerating the compliance journey.
- **Engaged in standardization**

  Our experts participate in, and contribute to, major standardization initiatives.

Making innovation possible.
Making the world work.
