

FIME supports banks in RUSSIA AND CIS

FIME-PRONIT PARTNERSHIP OPTIMIZES CUSTOMER EXPERIENCE

FIME®

One Action. A billion transactions.

Proximity and support in EMV certification testing for banks

BANKS BENEFIT FROM A RAPID MARKET ROLL OUT

Certification is an important step in any go-to-market process. It also can be challenging as each payment brand has its own specific test requirements and processes. FIME, together with its local partner PRONIT, provides you with best-in-class test tools and test services to considerably reduce time-to-market. PRONIT's local presence ensures that FIME tools are delivered efficiently from local stock. The relationship with PRONIT also enables local coordination of project set-up and follow-up.

COMPREHENSIVE TESTING WITH LOCAL SUPPORT

When you need extra resources to complete your certification project, how can you confidently locate and qualify the necessary certification expertise without putting your project at risk? Outsourcing those projects to FIME experts via PRONIT significantly accelerates the whole process, providing you with the results you expect, reducing costs and minimizing the risk of missing production deadlines.

SINGLE POINT OF LOCAL CONTACT

The FIME-PRONIT partnership ensures that FIME's expertise is localized and that the end-to-end customer experience is enhanced.

Our partner is recognized in Russia and CIS as a card service provider for leading financial institutions. FIME, being accredited by payment authorities to provide formal approval services, delivers you the highest quality certification tools and services, with localized support and contact through PRONIT.
