

Understand all that is involved in the deployment of open payment in AFC systems.

This training course provides a complete overview of a typical EMV open-loop project, and offers insight and guidance to those considering or planning to deploy EMV open-loop ticketing system within their transport infrastructure.

Objectives

- Understand the EMV open-loop payment ecosystem and transport integration.
- Understand the role of each player.
- Introduce EMV open loop migration and certification.

Key topics

- Review of EMV open-loop technologies.
- Open payment architectures.
- Overview of EMV open-loop migration project lifecycle.
- Impact at each level of the AFC system.

Audience

- Transport ticketing stakeholders.
- Management and staff members considering or planning to implement an EMV open-loop system.

Prerequisites

Basic knowledge of transport Automatic Fare Collection (AFC) systems. Attendance of the 'AFC – Ecosystem overview' training would be an advantage.
