

Understand everything about multimodal biometrics.

This training course provides an overview of multimodal biometrics solutions, which are available in the market, and how to use them to reinforce the security.

Objectives

- Detail the different components of multimodal biometrics.
- Describe the different solutions available in the market.
- Identify impacts related to protection and security.

Key topics

- How can I make my biometrics more secure?
- How multimodal biometrics enhance security?
- How much does biometric technology cost?

Audience

Anyone wishing to learn more about multimodal biometrics, with the aim to deploy a solution.

Prerequisites

None.

Price

Visit our website for more information about our training offer. For any specific requests, please contact us.

Authentication

Multimodal biometrics.

Fime plus

- Stay in contact with your Fime trainer after the session for continued support and insight.
- Be part of Fime's trainee community and stay up to date with the latest technological developments.
- Receive an official Fime certificate to recognize your participation.

Training pack

Includes a binder, notebook, pen, USB key and your official certificate.

Duration	Location	Dedicated training
1 day	Your premises or Fime agency	Contact us. To organize exclusive and bespoke training sessions at your premises.

Training course program

Morning

Presentation of biometrics.

What is multimodal biometrics?

Ubiquitous digital environment.

Impacts and benefits.

Afternoon

Key points for designing multimodal products and choosing fusion method.

Protection and security.

Live adaptation to close-context environment.

Standards and evaluation for multimodal biometrics.
