fime

Fime Test Cards

Find the right test cards for your acquirer brand certification.

Acquirer and acceptance test cards.

Used by Fime Labs

Flexible, ready-to-use acquirer and acceptance test cards.

Our test media have flexibility built in to simplify your test projects. Use our softcards, emulated with **Savvi**, for total automation. Use physical or programmable cards distributed among your testers, or use our on-demand cards.

Most importantly, all of our test cards include transaction log recording for acquirers, merchants and processors.

How it works.

- Access to a payment brand test host if required.
- Select **Fime Test Cards** with **Savvi** test tool to simplify and speed-up the management certification sessions.
- Request on-site services to assist you in your preparation and certification testings of your terminal and host systems.
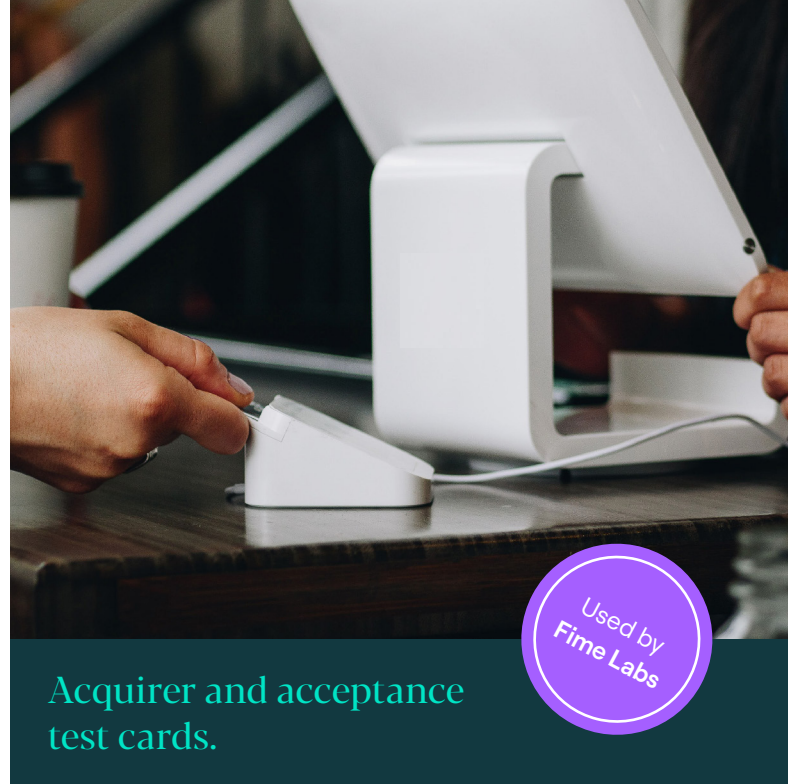

Key benefits

- Simplify the management and maintenance of your certification test cards.
- Test any terminal form factor: POS, SoftPOS, mPOS, BBT, CAT and ATM.
- Use **Fime Test Cards** with **Savvi**.
- Retrieve and view card logs easily.
- Share cards among multiple testers.
- Physical test cards are robust and easy to carry for use in the field.

Key features

- Test result storage on the card.
- Card Log Viewer software (card / terminal transaction logs, test card infomation display, raw or interpreted format logs, export log export to Savvi Test Platform).
- Supports standard EMV® chip card form factors.
- Compact and convenient package.
- Support for major payment brand.
- Specific test card development available on demand.

Fime can help you at any stage of your project lifecycle.
